Enclosure No. 1 file

Kakanhatti continued to be a Union the District Board being a large body and having various sources of income somehow managed the affairs of the Union. Since the conversion of this Union into a minor municipality ordered by Government in the year 1913, the whole management of the municipality was vested in the municipal council whose resources are, it is safe to state, much less than the District Board. Moreover the income of the municipality is too poor to undertake work of sanitary improvements which the municipality requires very badly. Copy of the note of my inspection of the municipality held in March last is forwarded herewith for favour of perusal. It will be seen therefrom that a good deal of work remains to be done in the municipality. In these circumstances, the municipality cannot stand on a level with the District Board in the matter of having the whole or a portion of the gates receipts as resolved by the municipal council. The view taken by the municipal council is very shortsighted in as much as they sacrifice the interests of the municipality to the public. The whole matter is left entirely out of the control of the council officials. Their interests are to be safeguarded.

In view of all these circumstances, I am of opinion that at least half of the gate receipts should be ordered to be credited in the municipal funds or the municipal council may be allowed to collect a fixed rate from all shops opened in the bazar next to the gate, which are not situated in the said street. The entire form could be considered in this subject is herewith sent for reference and favour of return.

No. 5884

8 file.

Inspected Nilambur Municipality. The town has become unhealthy and is decaying as it is water-logged, being surrounded on all sides by paddy fields. The houses are in a lower level than the road. Drains / wells are none. The proposal to shift the town to a higher and healthier locality has not been given effect to as the people are reluctant to move from the temple which is of considerable importance.

As a first step the municipality should take action (1) to prohibit paddy cultivation within one furlong from the houses (2) storm water drain should be excavated and revetted in 2 places at least (3) drains should be constructed in all streets (4) good basement should be given to the existing houses if they are to be rebuilt (5) encroachments round the temple and houses also to be got removed (6) thickly wooded patches within the houses should be rooted out.

If these things are attended to immediately, there will probably be great improvement in the health of the town.

Municipal revenue should be improved by the rents to be realised from shops opened in the main street during the fairs. The fairs should be leased to municipality and not to private firms.

The President is requested to discuss the matter in the municipal council and take necessary further action in the matter.

Inspected Naikanhatti municipality. The to[illegible] and is decaying as it is [illegible] paddy fields. The houses are in a [illegible] are none. The proposal to [illegible] has not been given effect to as [illegible] temple which is of considerable importance.
